October 18, 2016

Dear Mr. Salinas,

I want to express my gratitude for this rewarding, enriching experience at the Aspen Institute's weeklong Executive Seminar. I was humbled by my peers and experienced a life changing week of self improvement and growth.

As a female founder and CEO in the technology and wellness space I am extremely fortunate to have had this generous opportunity to reflect upon leadership, the good society, and ways to make the world a better place. As a recipient of The Ricardo Salinas Scholarship to increase the participation of Latinos and Latin Americas in Aspen Institute Programs, I take it seriously to now disseminate this information to others. The real work, the hard work begins now as I put to the test what I have learned and try to lead by example.

To the moderators: your graciousness, exemplary classroom performance, and knowledge are unparalleled. Thank you for taking time out of your lives to help us grow and become better citizens of the world.

I can only hope that more female founders get to experience what I did at Aspen, amongst incomparable peers, in a beautiful setting, and enriching conversations.

Kind regards,  
Catherine Cuello-Fuente
