

Testimonial – IMT México 2017

Bernardo Leão – Vox Capital

Firstly I would like to thank *Fundación Ricardo Salinas* for the scholarship that was key to my participation in the Investment Manager Training provided by ANDE in México City, 2017.

Definitely I have benefit from the course and it made me a more complete professional. Besides, John Kohler is an expert trainer with a lot of experience in the sector, very transparent and accessible, whose interactions were technical and relevant to apply in Vox Capital.

As my responsibilities in Vox Capital include financial engineering, deal structuring, termsheets and valuation, the course was extremely useful because it deepened all the aforementioned areas. Moreover, my colleagues were from different backgrounds and institutions from all over the world, which created a heterogeneous environment and high-level discussions led by John Kohler.

The excellent materials provided by John and ANDE were very supportive, easy to follow and complete. Moreover, I have learnt a lot by the discussions permeated by the real cases John brought to class. Finally, the field trip to visit an entrepreneur and to see how they use *Sistema Biobolsa* solution was extraordinary.

Bernardo Leão C. Lima
